

## News regarding MW observations

---

- **RXTE Cycle 12: proposals due 26 January 2007 (B.Giebels)**
- **Dave Thompson is in touch with the MOJAVE group (Matthias Kadler).**  
Head: Matt Lister at Purdue

VLBA studies of the brightest radio blazars for nearly 10 years.

Their list (181) now includes all the blazars seen by EGRET . This list is significantly different from VIPS'.

Dave: “Shouldn't we be making a strong effort to include this group in LAT planning?”
